

BAUSport™ by Sonicbone Medical:

Tel: +972-505241184; info@sonicbonemedical.com; www.sonicbonemedical.com

- **Sonicbone Medical**, Israeli based, has developed and is commercializing the **BAUSport™** system, an innovative **ultrasound** device for **Bone Age assessment & Final Adult Height Prediction** of **young athletes**.
- **BAUSport™** is an important supportive tool for sport's **Trainers, Physicians & Scientists**, for applying more **scientifically-based criteria** in:
 - **Talent selection**, development of skills and training programs.
 - Routine evaluation of **athletes' Biological or Bone Maturation State**.
 - **Injury prevention**.
- Clinically validated, regulatory approved, **BAUSport™** aims at **replacing** the current **X-ray based** conventional methods (G&P, TW3) which carry many deficiencies such as: exposure to radiation, low precision and high cost.
- **BAUSport™** is placed at Expert's office, results are **digital, objective, accurate and in real-time**.
- **BAUSport™** is **Impacting the future of sports forever**
